To the Participant of “Nor Horizon” UCO LLC:

We have audited the accompanying financial statements of “Nor Horizon” UCO LLC (the “Organization”), which comprise the balance sheet as at December 31, 2007, and the income statement, statement of changes in equity and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes.

### *Management's responsibility for the financial statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

### *Auditor's responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Organization's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

*Opinion*

In our opinion, the financial statements give a true and fair view of the financial position of the Organization as of December 31, 2007, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

23 May 2008

## Income statement

In thousand Armenian drams		Year ended December 31, 2007 (audited)	Nine month ended December 31, 2006 (audited)
	Notes		
Interest and similar income	6	134,814	26,038
Interest and similar expense	6	(28,678)	(899)
<b>Net interest income</b>		<b>106,136</b>	<b>25,139</b>
Fee and commission expense	7	(1,702)	(1,010)
Net trading income	8	109	-
Other income	9	671	21
Impairment charge for credit losses	10	(1,430)	(4,850)
Staff costs	11	(57,363)	(3,496)
Depreciation of property and equipment	16	(5,199)	(766)
Amortization of intangible assets	17	(315)	(180)
Other expenses	12	(34,947)	(14,304)
<b>Profit before income tax</b>		<b>5,960</b>	<b>554</b>
Income tax expense	13	(3,685)	(291)
<b>Profit for the year</b>		<b>2,275</b>	<b>263</b>

The accompanying notes on pages 7 to 33 are an integral part of these financial statements.

## Balance sheet

In thousand Armenian drams		As of December 31, 2007 (audited)	As of December 31, 2006 (audited)
	Notes		
<b>ASSETS</b>			
Cash and amounts due from banks	14	80,983	8,928
Loans and advances to customers	15	627,522	282,859
Property, plant and equipment	16	87,229	79,116
Intangible assets	17	2,655	2,970
Deferred income tax assets	13	385	775
Other assets	18	132	-
<b>TOTAL ASSETS</b>		<b>798,906</b>	<b>374,648</b>
<b>LIABILITIES AND EQUITY</b>			
<b>Liabilities</b>			
Amounts due to financial institutions	19	218,177	-
Borrowings	20	363,279	161,869
Current income tax liabilities		2,055	891
Other liabilities	21	3,827	2,595
<b>Total liabilities</b>		<b>587,338</b>	<b>165,355</b>
<b>Equity</b>			
Charter capital	22	180,000	180,000
Fair value reserve		29,030	29,030
Retained earnings		2,538	263
<b>Total equity</b>		<b>211,568</b>	<b>209,293</b>
<b>TOTAL LIABILITIES AND EQUITY</b>		<b>798,906</b>	<b>374,648</b>

The financial statements from pages 3 to 33 were approved by the Management of the Organization on 23.05.08 and signed by the Organization's Executive Director and Chief Accountant. The accompanying notes on pages 7 to 33 are an integral part of these financial statements.

Khoren Kerobyan  
Executive Director

Monika Khachatryan  
Chief accountant

## Statement of changes in equity

In thousand Armenian drams	Charter capital	Fair value reserve	Retained earnings	Total
<b>Balance as of March 28, 2006</b>	-	-	-	-
Increase in capital as a result of borrowing received from the related party at below market interest rate (note 20)	-	29,030	-	29,030
Total income and expense recognized directly in equity	-	29,030	-	29,030
Profit for the period	-	-	263	263
Total income and expense for the year	-	29,030	263	29,293
Increase in charter capital	180,000	-	-	180,000
<b>Balance as of December 31, 2006 (audited)</b>	<b>180,000</b>	<b>29,030</b>	<b>263</b>	<b>209,293</b>
Profit for the year	-	-	2,275	2,275

## Statement of cash flows

In thousand Armenian drams	Year ended December 31, 2007 (audited)	Nine month ended December 31, 2006 (audited)
<b>Cash flows from operating activities</b>		
Interest received	130,006	23,132
Interest paid	(14,158)	-
Fees and commissions paid	(1,702)	(1,010)
Realised gains less losses from dealing in foreign currencies	109	-
Other income received/recovery of previously written off loans	453	-
Salaries and benefits paid	(42,576)	(2,247)
Other operating expenses paid	(43,375)	(12,250)
<b>Cash flows from operating activities before changes in operating assets and liabilities</b>	<b>28,757</b>	<b>7,625</b>
<i>Net increase in operating assets</i>		
Loans and advances to customers	(343,163)	(284,804)
<b>Net cash flow from operating activities before income tax</b>	<b>(314,406)</b>	<b>(277,179)</b>
Income tax paid	(2,131)	(175)
<b>Net cash used in operating activities</b>	<b>(316,537)</b>	<b>(277,354)</b>
<b>Cash flows from investing activities</b>		
Purchase of property and equipment	(13,355)	(79,938)
Purchase of intangible assets	-	(3,780)
<b>Net cash used in investing activities</b>	<b>(13,355)</b>	<b>(83,718)</b>
<b>Cash flow from financing activities</b>		
Proceeds from issue of charter capital	-	180,000
Loans received from financial institutions	60,830	-
Borrowings	339,611	190,000
<b>Net cash from financing activities</b>	<b>400,441</b>	<b>370,000</b>
<b>Net increase in cash and cash equivalents</b>	<b>70,549</b>	<b>8,928</b>
Cash and cash equivalents at the beginning of the year	8,928	-
Effect of exchange rate changes on cash and cash equivalents	1,506	-
<b>Cash and cash equivalents at the end of the year (Note 14)</b>	<b>80,983</b>	<b>8,928</b>

# Accompanying notes to the financial statements

## **1 Principal activities**

“Nor Horizon” UCO LLC (the “Organization”) is a limited liability company, which was incorporated in the Republic of Armenia in 28.03.06. The Organization is regulated by the legislation of RA and conducts its business under license number 12, granted on 28.03.06 by the Central Bank of Armenia (the “CBA”).

The objective of the Organization is to foster economic and social development of Armenian population by providing loans for the development of small and medium sized entrepreneurship). Its main office is in Yerevan and it has 4 branches and 2 representative offices in Yerevan and in different regions.

The registered office of the Organization is located at: 54 Komitas str., Yerevan.

## **2 Armenian business environment**

Armenia continues to undergo political and economic changes. As an emerging market, Armenia does not possess a developed business and regulatory infrastructure that generally exists in a more mature free market economy. Consequently, operations carried out in Armenia involve certain risks that are not typically associated with those in developed countries.

The Organization could be affected, for the foreseeable future, by these risks and their consequences. The accompanying financial statements do not include any adjustments that may result from the future clarification of these uncertainties. Such adjustments, if any, will be reported in the Organization’s financial statements in the period when they become known and estimable.

In addition, economic conditions continue to limit the volume of activity in the financial markets. Market quotations in generally illiquid markets may not be reflective of the values for financial instruments, which would be determined in an efficient, active market involving many willing buyers and willing sellers.

## **3 Basis of preparation**

### **3.1 Statement of compliance**

The financial statements of the Organization have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as developed and published by the International Accounting Standards Board (IASB), and Interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”). As 2006 is the first year of operations of the Organization, comparative information and financial statements include the results of the Organization’s financial performance and cash flow for the nine month period ended 31.12.06.

### **3.2 Basis of measurement**

The financial statements have been prepared on a fair value basis for financial assets and liabilities at fair value through profit or loss and available for sale assets, except those for which a reliable measure of fair value is not available. Other financial assets and liabilities are stated at amortized cost and non-financial assets and liabilities are stated at historical cost.

### 3.3 Functional and presentation currency

Functional currency of the Organization is the currency of the primary economic environment in which the Organization operates. The Organization's functional currency and the Organization's presentation currency is Armenian Drams ("AMD"), since this currency best reflects the economic substance of the underlying events and transactions of the Organization. The Organization prepares statements for regulatory purposes in accordance with legislative requirements and Accounting Standards of the Republic of Armenia. These financial statements are based on the Organization's books and records as adjusted and reclassified in order to comply with IFRS. The financial statements are presented in thousands of AMD, which is not convertible outside Armenia.

### 3.4 Reclassifications

Where necessary, comparative figures have been adjusted to conform to changes in presentation in the current year.

### 3.5 New standards and interpretations

Certain new IFRSs became effective for the Organization from 1 January 2007. Listed below are those new or amended standards or interpretations which are or in the future could be relevant to the Organization's operations and the nature of their impact on the Organization's accounting policies.

#### ***IFRS 7, Financial Instruments: Disclosures and a complementary Amendment to IAS 1 Presentation of Financial Statements - Capital Disclosures (effective from 1 January 2007).***

The IFRS 7 introduced new disclosures to improve the information about financial instruments, including about quantitative aspects of risk exposures and the methods of risk management. The new quantitative disclosures provide information about the extent of exposure to risk, based on information provided internally to the entity's key management personnel. Qualitative and quantitative disclosures cover exposure to credit risk, liquidity risk and market risk including sensitivity analysis to market risk. IFRS 7 replaced IAS 30, Disclosures in the Financial Statements of Banks and Similar Financial Institutions, and some of the requirements in IAS 32, Financial Instruments: Disclosure and Presentation. The Amendment to IAS 1 introduced disclosures about the level of an entity's capital and how it manages capital. The adoption of IFRS 7 and the amendment to IAS 1 had no impact on the reported profits or financial position of the Organization. The new disclosures are made in these financial statements and in accordance with the transitional requirements of the standards, the Organization has provided full comparative information.

***Other new standards or interpretations.*** The Organization has adopted the following other new standards or interpretations:

- IFRIC 7, *Applying the Restatement Approach under IAS 29* (effective for periods beginning on or after 1 March 2006);
- IFRIC 8, *Scope of IFRS 2* (effective for periods beginning on or after 1 May 2006);
- IFRIC 9, *Reassessment of Embedded Derivatives* (effective for annual periods beginning on or after 1 June 2006);
- IFRIC 10, *Interim Financial Reporting and Impairment* (effective for annual periods beginning on or after 1 November 2006).

The effect of these changes on the financial statements of the Organization is not significant.

At the date of authorization of these financial statements, the following Standards and Interpretations to the Organization were issued but not yet effective:

- IFRIC 12 *Service Concession Arrangement* (effective January 1, 2008)
- IFRIC 13 *Customer Loyalty Programmes* (effective July 1, 2008)
- IFRIC 14 *IAS 19 The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction* (effective January 1, 2008)
- IAS 23 *Borrowing Costs (revised 2007)* (effective January 1, 2009)
- IFRS 8 *Operating Segments* (effective January 1, 2009)

#### **4 Summary of significant accounting policies**

The following significant accounting policies have been applied in the preparation of the financial statements. The accounting policies have been consistently applied.

##### **4.1 Recognition of income and expenses**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Organization and the revenue can be reliably measured. Expense is recognized to the extent that it is probable that the economic benefits will flow from the Organization and the expense can be reliably measured. The following specific criteria must also be met before revenue is recognized:

###### *Interest income and expense*

Interest income and expense for all interest-bearing financial instruments, except for those classified as held for trading or designated at fair value through profit or loss, are recognised within 'interest income' and 'interest expense' in the income statement using the effective interest method.

Once the recorded value of a financial asset or a group of similar financial assets has been reduced due to an impairment loss, interest income continues to be recognized using the original effective interest rate applied to the new carrying amount.

###### *Fee and commission expense*

Loan origination fees for loans issued to customers are deferred (together with related direct costs) and recognised as an adjustment to the effective yield of the loans. Fees, commissions and other expense items are generally recorded on an accrual basis when the service has been provided.

###### *Net trading income*

Net trading income includes gains less losses from trading in foreign currencies.

##### **4.2 Foreign currency translation**

Transactions in foreign currencies are initially recorded in the functional currency rate ruling at the date of the transactions. Gains and losses resulting from the translation of trading assets are recognised in the statement of income in net trading income, while gains less losses resulting from translation of non-trading assets are recognized in the statement of income in other income or other expense. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange ruling at the balance sheet date.

Differences between the contractual exchange rate of a certain transaction and the prevailing average exchange rate on the date of the transaction are included in gains less losses from trading in foreign currencies in net trading income.

The exchange rates at year-end used by the Organization in the preparation of the financial statements are as follows:

	December 31, 2007	December 31, 2006
AMD/1 US Dollar	304.22	363.50
AMD/1 Euro	446.96	478.73

### 4.3 Taxation

Income tax on the profit for the year comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities are calculated in respect of temporary differences using the liability method. Deferred income taxes are provided for all temporary differences arising between the tax bases of assets and liabilities and their carrying values for financial reporting purposes, except where the deferred income tax arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

A deferred tax asset is recorded only to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised. Deferred tax assets and liabilities are measured at tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted at the balance sheet date.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, associates and joint ventures, except where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The Republic of Armenia also has various operating taxes, which are assessed on the Organization's activities. These taxes are included as a component of other expenses in the statement of income.

### 4.4 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and amounts due from banks, which can be converted into cash at short notice and which are subject to an insignificant risk of changes in value.

Cash and cash equivalents are carried at amortised cost.

### 4.5 Amounts due from banks

In the normal course of business, the Organization maintains advances or deposits for various periods of time with banks. Deposits to banks with a fixed maturity term are subsequently measured at amortized cost using the effective interest method. Those that do not have fixed maturities are carried at amortized cost based on maturities estimated by management.

#### **4.6 Financial instruments**

The Organization recognizes financial assets and liabilities on its balance sheet when it becomes a party to the contractual obligation of the instrument. Regular way purchases and sales of financial assets and liabilities are recognised using settlement date accounting. Regular way purchases of financial instruments that will be subsequently measured at fair value between trade date and settlement date are accounted for in the same way as for acquired instruments.

When financial assets and liabilities are recognised initially, they are measured at fair value, plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

After initial recognition all financial liabilities, other than liabilities at fair value through profit or loss (including held for trading) are measured at amortized cost using effective interest method. After initial recognition financial liabilities at fair value through profit or loss are measured at fair value.

The Organization classified its financial assets into the following categories: loans and receivables, financial instruments at fair value through profit or loss, available-for-sale financial instruments and held-to-maturity investments. The classification of investments between the categories is determined at acquisition based on the guidelines established by the management. The Organization determines the classification of its financial assets after initial recognition and, where allowed and appropriate, re-evaluates this designation at each financial year-end.

##### ***Loans and receivables***

Loans and receivables are financial assets with fixed or determinable payments, which arise when the Organization provides money directly to a debtor with no intention of trading the receivable.

Loans granted by the Organization with fixed maturities are initially recognized at fair value plus related transaction costs. Where the fair value of consideration given does not equal the fair value of the loan, for example where the loan is issued at lower than market rates, the difference between the fair value of consideration given and the fair value of the loan is recognized as a loss on initial recognition of the loan and included in the income statement as losses on origination of assets. Subsequently, the loan carrying value is measured using the effective interest method. Loans to customers that do not have fixed maturities are accounted for under the effective interest method based on expected maturity. Loans to customers are carried net of any allowance for impairment losses.

##### ***Available-for-sale financial instruments***

Investments available for sale represent debt and equity investments that are intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices. After initial recognition available-for sale financial assets are measured at fair value with gains or losses being recognised as a separate component of equity until the investment is derecognised or until the investment is determined to be impaired at which time the cumulative gain or loss previously reported in equity is included in the statement of income. However, interest calculated using the effective interest method is recognised in the statement of income. Dividends on available-for-sale equity instruments are recognised in profit or loss when the Organization's right to receive payment is established.

The fair value of investments that are actively traded in organised financial markets is determined by reference to quoted market bid prices at the close of business on the balance sheet date. For investments where there is no active market, fair value is determined using valuation techniques. Such techniques include using recent arm's length market transactions, reference to the current

market value of another instrument, which is substantially the same, and discounted cash flow analysis. Otherwise the investments are stated at cost less any allowance for impairment.

#### **4.7 Impairment of financial assets**

The Organization assesses at each balance sheet date whether a financial asset or group of financial assets is impaired.

##### *Assets carried at amortised cost*

A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset ("loss event") and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Criteria used to determine that there is objective evidence of an impairment loss may include indications that the borrower or a group of borrowers is experiencing significant financial difficulty (for example, equity ratio, net income percentage of sales), default or delinquency in interest or principal payments, breach of loan covenants or conditions, deterioration in the value of collateral, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

The Organization first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the asset is included in a group of financial assets with similar credit risk characteristics and that group of financial assets is collectively assessed for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss on financial assets carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). The carrying amount of the asset shall be reduced through use of an allowance account. The amount of the loss shall be recognised in the statement of income. If a loan or held-to-maturity investment has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. The Organization may measure impairment on the basis of an instrument's fair value using an observable market price.

The calculation of the present value of the estimated future cash flows of a collateralised financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not the foreclosure is probable.

For the purpose of a collective evaluation of impairment, financial assets are grouped on the basis of the Organization's internal credit grading system that considers credit risk characteristics such as asset type, industry, geographical location, collateral type, past-due status and other relevant factors.

Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of the contractual cash flows of the assets in the group and historical loss experience for assets with credit risk characteristics similar to those in the group. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not currently exist.

Estimates of changes in future cash flows for groups of assets should reflect and be directionally consistent with changes in related observable data from period to period (for example, changes in unemployment rates, property prices, payment status, or other factors indicative of changes in the probability of losses in the group and their magnitude). The methodology and assumptions used for estimating future cash flows are reviewed regularly by the Organization to reduce any differences between loss estimates and actual loss experience.

Loans together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realized or has been transferred to the Organization. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. If future write-off is later recovered, the recovery is credited to the allowance account.

#### *Renegotiated loans*

Where possible, the Organization seeks to restructure loans rather than to take possession of collateral. This may involve extending the payment arrangements and the agreement of new loan conditions. Once the terms have been renegotiated, the loan is no longer considered past due. Management continuously reviews renegotiated loans to ensure that all criteria are met and that future payments are likely to occur. The loans continue to be subject to an individual or collective impairment assessment, calculated using the loan's original effective interest rate.

### **4.8 Derecognition of financial assets and liabilities**

#### *Financial assets*

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised where:

- the rights to receive cash flows from the asset have expired;
- the Organization has transferred its rights to receive cash flows from the asset, or retained the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass-through' arrangement; and
- the Organization either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Where the Organization has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Organization's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Organization could be required to repay.

Where continuing involvement takes the form of a written and/or purchased option (including a cash-settled option or similar provision) on the transferred asset, the extent of the Organization's continuing involvement is the amount of the transferred asset that the Organization may repurchase, except that in the case of a written put option (including a cash-settled option or similar provision) on an asset measured at fair value, the extent of the Organization's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

#### *Financial liabilities*

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the statement of income.

### **4.9 Leases**

#### *Operating - Organization as lessee*

Leases of assets under which the risks and rewards of ownership are effectively retained by the lessor are classified as operating leases. Lease payments under an operating lease are recognised as expenses on a straight-line basis over the lease term and included into other operating expenses.

### **4.10 Property, plant and equipment**

Property, plant and equipment ("PPE") are recorded at historical cost less accumulated depreciation. If the recoverable value of PPE is lower than its carrying amount, due to circumstances not considered to be temporary, the respective asset is written down to its recoverable value.

Depreciation is calculated using the straight-line method based on the estimated useful life of the asset. The following depreciation rates have been applied:

	Useful life (years)	Rate (%)
Buildings	20	5
Computers	3	33
Other fixed assets	5	20

Repairs and maintenance are charged to the income statement during the period in which they are incurred. The cost of major renovations is included in the carrying amount of the asset when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset will flow to the Organization. Major renovations are depreciated over the remaining useful life of the related asset.

Gains and losses on disposals are determined by comparing proceeds with carrying amount and are included in operating profit.

When revalued assets are sold, the amounts attributed to disposed item of assets and included in the revaluation reserve are transferred to retained earnings.

#### **4.11 Intangible assets**

Intangible assets include computer software.

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortised on a straight-line basis over the useful economic lives of 10 years and assessed for impairment whenever there is an indication that the intangible asset may be impaired. Amortisation periods and methods for intangible assets with finite useful lives are reviewed at least at each financial year-end.

Intangible assets with indefinite useful lives are not amortised, but tested for impairment annually either individually or at the cash-generating unit level. The useful life of an intangible asset with an indefinite life is reviewed annually to determine whether indefinite life assessment continues to be supportable.

Costs associated with maintaining computer software programmes are recorded as an expense as incurred.

#### **4.12 Borrowings**

Borrowings, which include amounts due to financial institutions and due to founder party are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, borrowings are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in the statement of income when the liabilities are derecognised as well as through the amortisation process.

#### **4.13 Pensions**

The Organization does not have any pension arrangements separate from the State pension system of the Republic of Armenia, which requires current contributions by the employer calculated as a percentage of current gross salary payments; such expense is charged in the period the related salaries are earned. In addition, the Organization has no post-retirement benefits or significant other compensated benefits requiring accrual.

#### **4.14 Provisions**

Provisions are recognised when the Organization has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of obligation can be made.

#### **4.15 Charter capital**

##### *Charter capital*

External costs directly attributable to the issue of new shares, other than on a business combination, are shown as a deduction from the proceeds in equity. Any excess of the fair value of consideration received over the par value of shares issued is recognised as additional paid-in capital.

##### *Dividends*

Dividends are recognised as a liability and deducted from equity at the balance sheet date only if they are declared before or on the balance sheet date. Dividends are disclosed when they are

proposed before the balance sheet date or proposed or declared after the balance sheet date but before the financial statements are authorised for issue.

#### **4.16 Offsetting**

Financial assets and liabilities, and income and expenses, are offset and the net amount reported in the balance sheet when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

### **5 Critical accounting estimates and judgements**

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expense. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Although these estimates are based on management's best knowledge of current events and actions, actual results ultimately may differ from these estimates.

The most significant areas of judgements and estimates with regards to these financial statements are presented below:

#### *Related party transactions*

In the normal course of business the Organization enters into transactions with its related parties. These transactions are priced predominantly at market rates. Judgement is applied in determining if transactions are priced at market or non-market interest rates, where there is no active market for such transactions. The basis for judgement is pricing for similar types of transactions with unrelated parties and effective interest rate analysis.

#### *Allowance for impairment of loans and receivables*

The Organization reviews its problem loans and advances at each reporting date to assess whether an allowance for impairment should be recorded in the income statement. In particular, judgement by management is required in the estimation of the amount and timing of future cash flows when determining the level of allowance required. Such estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the allowance.

In addition to specific allowances against individually significant loans and advances, the Organization also makes a collective impairment allowance against exposures which, although not specifically identified as requiring a specific allowance, have a greater risk of default than when originally granted. This take into consideration factors such as any deterioration in country risk, industry, and technological obsolescence, as well as identified structural weaknesses or deterioration in cash flows.

#### *Tax legislation*

Armenian tax legislation is subject to varying interpretations. Refer to Note 23.

**6 Interest and similar income and expense**

In thousand Armenian drams	2007	Nine month ended 31.12.06

**13 Income tax expense**

In thousand Armenian drams	2007	Nine month ended 31.12.06
Current tax expense	3,295	1,066
Deferred tax	390	(775)
<b>Total income tax expense</b>	<b>3,685</b>	<b>291</b>

The corporate income tax within the Republic of Armenia is levied at the rate of 20% (2006: 20%). Differences between IFRS and RA statutory tax regulations give rise to certain temporary differences between the carrying value of certain assets and liabilities for financial reporting purposes and for profit tax purposes. Deferred income tax is calculated using the principal tax rate of 20%.

Numerical reconciliation between the tax expenses and accounting profit is provided below:

In thousand Armenian drams	2007	Effective rate (%)	Nine month ended 31.12.06	Effective rate (%)
<b>Profit before tax</b>	<b>5,960</b>	-	554	-
Income tax at the rate of 20%	1,192	20	111	20

#### 14 Cash and amounts due from banks

In thousand Armenian drams	2007	2006
Cash on hand	<b>15,500</b>	-
Bank accounts	<b>65,483</b>	8,928
<b>Total cash and cash equivalents</b>	<b>80,983</b>	<b>8,928</b>

#### 15 Loans and advances to customers

In thousand Armenian drams	2007	2006
Loans to customers	<b>633,802</b>	287,709
Less allowance for loan impairment	<b>(6,280)</b>	(4,850)
<b>Total loans and advances to customers</b>	<b>627,522</b>	<b>282,859</b>

As of 31 December 2007 accrued interest income included in loans and advances to customers amounted to AMD 5,844 thousand (2006: AMD 2,906 thousand).

As of December 31, 2007, the Organization had a concentration of loans represented by AMD 44,417 thousand due from the ten largest third party entities and parties related with them (7.1 % of gross loan portfolio) (2006: AMD 21,739 thousand or 7.7 %). An allowance of AMD 444 thousand (2006: AMD 217 thousand) was made against these loans.

Reconciliation of allowance account for losses on loans and advances by class is as follows:

In thousand Armenian drams				2007
	Privately held companies	Individuals	Sole proprietors	Total
At 1 January 2007	344	3,464	1,042	4,850
Charge for the year	4	1,195	231	1,430
At 31 December 2007	<u>348</u>	<u>4,659</u>	<u>1,273</u>	<u>6,280</u>
Individual impairment	-	-	-	-
Collective impairment	<u>348</u>	<u>4,659</u>	<u>1,273</u>	<u>6,280</u>
	<u>348</u>	<u>4,659</u>	<u>1,273</u>	<u>6,280</u>

In thousand Armenian drams				2006
	Privately held companies	Individuals	Sole proprietors	Total
At 28 March 2006	-	-	-	-
Charge for the year	344	3,464	1,042	4,850
At 31 December 2006	<u>344</u>	<u>3,464</u>	<u>1,042</u>	<u>4,850</u>
Individual impairment	-	-	-	-
Collective impairment	<u>344</u>	<u>3,464</u>	<u>1,042</u>	<u>4,850</u>
	<u>344</u>	<u>3,464</u>	<u>1,042</u>	<u>4,850</u>

Loans and advances by customer profile may be specified as follows:

In thousand Armenian drams	2007	2006
Privately held companies	32,983	20,159
Individuals	472,886	213,150
Sole proprietors	122,089	51,494
Accrued interest	5,844	2,906
	<u>633,802</u>	<u>287,709</u>
Less allowance for loan impairment	(6,280)	(4,850)
<b>Total loans and advances to customers</b>	<u><b>627,522</b></u>	<u><b>282,859</b></u>

Loans to individuals comprise the following products:

In thousand Armenian drams	2007	2006
Mortgage loans	22,656	-
Consumer loans	391,402	167,924
Other	58,828	45,226
<b>Total loans and advances to individuals (gross)</b>	<b>472,886</b>	<b>213,150</b>

At 31 December 2007 and 2006 the estimated fair value of loans and advances to customers approximates its carrying value. Refer to Note 25.

Credit, currency, liquidity and interest rate analyses of loans and advances to customers are disclosed in Note 27. The information on related party balances is disclosed in Note 24.

At December 31, 2006	2,970

**18 Other assets**

In thousand Armenian drams	2007	2006
Prepayments and other debtors	50	-
Unamortized insurance premium	82	-
<b>Total other assets</b>	<b>132</b>	<b>-</b>

**19 Amounts due to financial institutions**

In thousand Armenian drams	2007	2006
Loans from banks	61,328	-
Loans from international financial institutions	156,849	-
<b>Total amounts due to financial institutions</b>	<b>218,177</b>	<b>-</b>

All loans from banks and international financial institutions have fixed interest rates

Loans from international financial institutions include loans from Oxfam Novib.

The Organization has not had any defaults of principal, interest or other breaches with respect to its liabilities during the period (2006: nil).

## 20 Borrowings

Included in borrowings, provided by related party, are borrowings from its participant “Horizon” foundation, issued on 03 September 2007 in the amount of AMD 30,000 thousand at 5% per annum and payable AMD 10,000 thousand by the 15 November 2007, the rest by the contractual maturity date on 03 September 2008 and issued on 31 January 2007 in the amount of AMD 250,000 thousand at 8% per annum and payable AMD 100,000 thousand by the 15 November 2009 by four equal semiannual installments and the rest by the contractual maturity date on 31 January 2012.

During 2006 (02 October 2006) the Organization received borrowing amounting to AMD 190,000 thousand at zero interest rate from its participant “Horizon” foundation, contractual maturity date on 02 October 2009. As interest on the borrowing was not at market rate the difference of AMD 29,030 thousand between the fair value on inception of the loan calculated as a present values of future cash flows on the loan discounted at current annual market rate of 6% and the amount actually received has been recognized as part of the equity.

Information on related party balance is disclosed in Note 24.

The Organization has not had any defaults of principal, interest or other breaches with respect to its liabilities during the period (2006: nil).

## 21 Other liabilities

In thousand Armenian drams	2007	2006
Accounts payables	2,319	1,908
Tax payable, other than income tax	930	474
Due to personnel	578	213
<b>Total other liabilities</b>	<b>3,827</b>	<b>2,595</b>

## 22 Equity

As at 31 December 2007 the Organization’s registered and paid-in charter capital was AMD 180,000 thousand. In accordance with the Organization’s statutes, the charter capital consists of 1 share, which has a par value of AMD 180,000 thousand.

The only participant as at 31 December 2006 and 2007 is “Horizon” foundation.

The charter capital of the Organization was contributed by the participant in Armenian Drams and they are entitled to dividends and any capital distribution in Armenian Drams.

### 23 Contingent liabilities and commitments

#### *Tax and legal matters*

The taxation system in Armenia is characterized by frequently changing legislation, which is often unclear, contradictory and subject to interpretation. Often, differing interpretations exist among various taxation authorities and jurisdictions.

Management believes that the Organization has complied with all regulations and has completely settled all its tax liabilities.

As of 31 December 2007 there were no legal actions and complaints taken against the Organization. Therefore, the Organization has not made any respective provision related to such tax and legal matters.

#### *Operating lease commitments – Organization as a lessee*

In the normal course of business the Organization enters into commercial lease agreements for branch facilities.

The future aggregate minimum lease payments under non-cancellable operating leases are as follows:

In thousand Armenian drams	2007	2006
Not later than 1 year	5,664	2,904
Later than 1 year and not later than 5 years	19,568	10,342
Later than 5 years	5,040	3,432
<b>Total operating lease commitments</b>	<b>30,272</b>	<b>16,678</b>

#### *Insurance*

The Organization's premises are insured for AMD 82,313 thousand. The Organization has not currently obtained insurance coverage related to liabilities arising from errors or omissions. Liability insurance is generally not available in Armenia at present.

### 24 Transactions with related parties

In accordance with IAS 24 *Related Party Disclosures*, parties are considered to be related if one party has ability to control the other party or exercise significant influence over the other party in making financial or operational decisions. For the purpose of the present financial statements, related parties include shareholders, members of Organization's Management as well as other persons and enterprises related with and controlled by them respectively.

The Organization's only participant and its ultimate controlling party is "Horizon" foundation.

A number of transactions are entered into with related parties in the normal course of business.

These include loans and borrowings. These transactions were carried out on commercial terms and at market rates, except for borrowings, information on which is disclosed below.

The volumes of related party transactions, outstanding balances at the year end, and related expense and income for the year are as follows:

In thousand Armenian drams	2007		2006	
	Participants	Key management personnel	Participants	Key management personnel
<b>Loans and advances to customers</b>				
Loans outstanding at the beginning of the period, gross	-	-	-	-
Loans issued during the period	-	1,200	-	-
Loan repayments during the period	-	(517)	-	-
Loans outstanding at December 31, gross	-	683	-	-
Less: allowance for loan impairment	-	(7)	-	-
<b>Loans outstanding at December 31</b>	-	<b>676</b>	-	-
Interest income on loans	-	50	-	-
<b>Amounts due to financial institutions/participants</b>				
At the beginning of the period	161,869	-	-	-
Increase	293,616	-	161,869	-
Decrease	(92,206)	-	-	-
At December 31	<b>363,279</b>	-	<b>161,869</b>	-
Commitments and guarantees received	189,548	-	190,000	-
<b>Income statement items</b>				
Interest expense on borrowings	25,156	-	899	-

Compensation of key management personnel was comprised of the following:

In thousand Armenian drams	2007	9 month ended 31.12.06
Salaries and other short-term benefits	8,323	1,001
Social security costs	721	228
<b>Total key management compensation</b>	<b>9,044</b>	<b>1,229</b>

The loans issued to key management personnel during the year of AMD 1,200 thousand (2006: nil) are repayable monthly over two years and have interest rates of 5% and 10%.

## 25 Fair value of financial instruments

### *Financial instruments not measured at fair value*

The fair value of financial assets and liabilities, not presented on the Organization's balance sheet at their fair value, does not differ significantly from their carrying values:

### *Amounts due from and to financial institutions*

For assets and liabilities maturing within one month, the carrying amount approximates fair value due to the relatively short-term maturity of these financial instruments. For the assets and liabilities maturing in over one month, the fair value was estimated as the present value of estimated future cash flows discounted at the appropriate year-end market rates.

### *Loans and advances to customers*

The estimated fair value of fixed interest rate instruments is based on estimated future cash flows expected to be received discounted at current interest rates for new instruments with similar credit risk and remaining maturity.

### *Borrowings*

The estimated fair value of fixed interest-bearing borrowings not quoted in an active market and zero interest rate borrowings is based on discounted cash flows using interest rates for new debts with similar remaining maturity. The fair value of borrowings, not presented on the Organization's balance sheet at their fair value, does not differ significantly from their carrying values.

## 26 Maturity analysis of assets and liabilities

The table below shows an analysis of assets and liabilities analyzed according to when they are expected to be recovered or settled. See Note 27.3 for the Organization's contractual undiscounted repayment obligations.

In thousand Armenian drams	Demand and less than 1 month	From 1 to 3 months	From 3 to 12 months	Subtotal less than 12 months	From 1 to 5 years	Total

## 27 Risk management

The Organization's activities expose it to a variety of financial risks and those activities involve the analysis, evaluation, acceptance and management of some degree of risk or combination of risks. Taking risk is core to the financial business, and the operational risks are an inevitable consequence of being in business. The Organization's aim is therefore to achieve an appropriate balance between risk and return and minimise potential adverse effects on the Organization's financial performance.

The Organization's risk management policies are designed to identify and analyse these risks, to set appropriate risk limits and controls, and to monitor the risks and adherence to limits by means of reliable and up-to-date information systems.

Risk management is carried out by Management under policies approved by the Board. The Management identifies, evaluates and hedges financial risks in close co-operation with the Organization's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments. In addition, internal audit is responsible for the independent review of risk management and the control environment. The most important types of risk are credit risk, liquidity risk, market risk and other operational risk. Market risk includes currency risk, interest rate and other price risk.

### 27.1 Credit risk

The Organization takes on exposure to credit risk, which is the risk that a counterparty will cause a financial loss for the Organization by failing to discharge an obligation. Credit risk is the most important risk for the Organization's business; management therefore carefully manages its exposure to credit risk. Credit exposures arise principally in lending activities that lead to loans and advances, and investment activities that bring debt securities and other bills into the Organization's asset portfolio. There is also credit risk in off-balance sheet financial instruments, such as loan commitments.

### 27.1.1 Maximum exposure to credit risk without taking account of any collateral and other credit enhancements

The table below represents a worst case scenario of credit risk exposure to the Organization at 31 December 2007 and 2006, without taking account of any collateral held or other credit enhancements attached. For on-balance-sheet assets, the exposures set out above are based on net carrying amounts as reported in the balance sheet.

In thousand Armenian drams	Notes	Gross maximum exposure as of December 31, 2007	Gross maximum exposure as of December 31, 2006
Cash and cash equivalents	14	80,983	8,928
Loans and advances to customers	15	627,522	282,859
<b>Total credit risk exposure</b>		<b>708,505</b>	<b>291,787</b>

### 27.1.2 Risk concentrations of the maximum exposure to credit risk

#### Geographical sectors

All of the Organization's assets are located in Armenia.

#### Industry sectors

The following table breaks down the Organization's main credit exposure at their carrying amounts, as categorized by the industry sectors of the counterparties as of 31 December.

In thousand Armenian drams	Financial institutions	Manufacturing	Agriculture	Trade	Service	Hypothec	Consumer sector	Other	Total
Cash and cash equivalents	80,983	-	-	-	-	-	-	-	80,983
Loans and advances to customers	-	7,938	57,876	124,034	14,090	22,656	400,116	812	627,522
<b>As at 31 December 2007</b>	<b>80,983</b>	<b>7,938</b>	<b>57,876</b>	<b>124,034</b>	<b>14,090</b>	<b>22,656</b>	<b>400,116</b>	<b>812</b>	<b>708,505</b>
As at 31 December 2006	8,928	2,144	40,547	59,870	10,594	-	165,665	4,039	291,787

### 27.1.3 Risk limit control and mitigation policies

The Organization manages, limits and controls concentrations of credit risk wherever they are identified – in particular, to individual counterparties and groups, and to industries and countries.

The Organization structures the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower, or groups of borrowers. Such risks are monitored on a revolving basis and subject to an annual or more frequent review, when considered necessary.

Exposure to credit risk is also managed through regular analysis of the ability of borrowers and potential borrowers to meet interest and capital repayment obligations and by changing these lending limits where appropriate.

Some other specific control and mitigation measures are outlined below.

**Collateral**

The Organization employs a range of policies and practices to mitigate credit risk. The most traditional of these is the taking of security for funds advances, which is common practice. The Organization implements guidelines on the acceptability of specific classes of collateral or credit risk mitigation. The principal collateral types for loans and advances are:

- Mortgages over residential properties;
- Charges over business assets such as premises, inventory and accounts receivable.

The analysis of loan portfolio by collateral is represented as follows:

In thousand Armenian drams	2007	2006
Loans collateralized by real estate	238,699	42,328
Loans collateralized by guarantees of financial institutions	60,558	-
Other collateral	278,931	121,366
Unsecured loans	49,770	121,109
Accrued interest	5,844	2,906
<b>Total loans and advances to customers (gross)</b>	<b>633,802</b>	<b>287,709</b>

**27.1.4 Impairment and provisioning policies**

The main considerations for the loan impairment assessment include whether any payments of principal or interest are overdue by more than 90 days or there are any known difficulties in the cash flows of counterparties, credit rating downgrades, or infringement of the original terms of the contract. The Organization addresses impairment assessment into areas: individually assessed allowances and collectively assessed allowances.

**Individually assessed allowances**

The Organization determines the allowances appropriate for each individually significant loan or advance on an individual basis. Items considered when determining allowance amounts include the sustainability of the counterparty's business plan, its ability to improve performance once a financial difficulty has arisen, projected receipts and the expected dividend payout should bankruptcy ensue, the availability of other financial support and the realizable value of collateral, and the timing of the expected cash flows. The impairment losses are evaluated at each reporting date, unless unforeseen circumstances require more careful attention.

**Collectively assessed allowances**

Allowances are assessed collectively for losses on loans and advances that are not significant (residential mortgages and unsecured consumer lending) and for individually significant loans and advances where there is not yet objective evidence of individual impairment. Allowances are evaluated on each reporting date with each portfolio receiving a separate review.

The collective assessment takes account of impairment that is likely to be present in the portfolio even though there is not yet objective evidence of the impairment in an individual assessment. Impairment losses are estimated by taking into consideration of the following information: historical losses on the portfolio, current economic conditions, the approximate delay between the time a loss is likely to have been incurred and the time it will be identified as requiring an individually assessed impairment allowance, and expected receipts and recoveries once impaired.

*Loans and advances neither past due or impaired*

The table below shows the credit quality by class of asset for loans and advances neither past due or impaired, based on the historical counterparty default rates.

In thousand Armenian drams	2007	2006
Loans and advances to customers		
Privately held companies	1%	1%
Individuals	1%	1%
Sole proprietors	1%	1%

*Past due and impaired loans*

As of 31 December 2007 the Organization has no past due and individually impaired loans.

**27.2 Market risk**

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates and foreign exchange rates. The Organization has no funds received and loans disbursed with floating interest rate. Except for the concentrations within foreign currency, the Organization has no significant concentration of market risk.

*Currency risk*

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Executive Board has set limits on positions by currency. Positions are monitored on a daily basis

The tables below indicate the currencies to which the Organization had significant exposure at 31 December 2007 on its non-trading monetary assets and liabilities and its forecast cash flows. The analysis calculated the effect of a reasonably possible movement of the currency rate against the Armenian dram, with all other variables held constant on the income statement (due to the fair value of currency sensitive non-trading monetary assets and liabilities). A negative amount in the table reflects a potential net reduction in income statement or equity, while a positive amount reflects a net potential increase.

In thousand Armenian drams	Currency	Change in currency rate in %	2007		2006	
			Effect on profit before tax	Change in currency rate in %	Effect on profit before tax	
	USD	+10	6	-	-	-
	USD	-10	6	-	-	-
	EUR	+10	(9,552)	-	-	-
	EUR	-10	9,552	-	-	-

The Organization had no assets or liabilities denominated in foreign currency during 2006.

The Organization's exposure to foreign currency exchange risk is as follow:

In thousand Armenian drams	Armenian Dram	Freely convertible currencies	Total
<b>ASSETS</b>			
Cash and cash equivalents	19,599	61,384	80,983
Loans and advances to customers	627,522	-	627,522
	<u>647,121</u>	<u>61,384</u>	<u>708,505</u>
<b>LIABILITIES</b>			
Amounts due to financial institutions	61,328	156,849	218,177
Borrowing	363,279	-	363,279
	<u>424,607</u>	<u>156,849</u>	<u>581,456</u>
<b>Net position as at 31 December 2007</b>	<u>222,514</u>	<u>(95,465)</u>	<u>127,049</u>
<hr/>			
Total financial assets	291,787	-	291,787
Total financial liabilities	161,869	-	161,869
Net position as at 31 December 2006	<u>129,918</u>	<u>-</u>	<u>129,918</u>

Freely convertible currencies represent mainly EUR and US dollar amounts

### 27.3 Liquidity risk

Liquidity risk is the risk that the Organization will be unable to meet its payment obligations when they fall due under normal and stress circumstances. To limit this risk, management has arranged diversified funding sources in addition to its core deposit base, manages assets with liquidity in mind, and monitors future cash flows and liquidity on a daily bases. This incorporates an assessment of expected cash flows and the availability of high grade collateral which could be used to secure additional funding if required.

The liquidity management of the Organization requires considering the level of liquid assets necessary to settle obligations as they fall due; maintaining access to a range of funding sources; maintaining funding contingency plans and monitoring balance sheet liquidity ratios.

The table below summarises the maturity profile of the Organization's financial liabilities at 31 December 2007 based on contractual undiscounted repayment obligations. See note 26 for the expected maturities of these liabilities. Repayments which are subject to notice are treated as if notice were to be given immediately.

In thousand Armenian drams					2007
	Demand and less than 1 month	From 1 to 3 months	From 3 to 12 months	From 1 to 5 years	Total
<b>FINANCIAL LIABILITIES</b>					
Amounts due to financial institutions	-	21,753	63,461	132,963	218,177
Borrowing	-	-	26,000	337,279	363,279
<b>Total undiscounted financial liabilities</b>	<u>-</u>	<u>21,753</u>	<u>89,461</u>	<u>470,242</u>	<u>581,456</u>

In thousand Armenian drams					2006
	Demand and less than 1 month	From 1 to 3 months	From 3 to 12 months	From 1 to 5 years	Total
<b>FINANCIAL LIABILITIES</b>					
Borrowing	-	-	-	161,869	161,869
<b>Total undiscounted financial liabilities</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>161,869</b>	<b>161,869</b>

The Organization has received significant funds from “Horizon” foundation. Any significant withdrawal of these funds would have an adverse impact on the operations of the Organization. Management believes that this level of funding will remain with the Organization for the foreseeable future and that in the event of withdrawal of funds, the Organization would be given sufficient notice so as to realise its liquid assets to enable repayment.

## **28 Capital adequacy**

The primary objectives of the Organization’s capital management are to ensure that the Organization complies with externally imposed capital requirements and that the Organization maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise participant’s value.

The Organization manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of its activities. No changes were made in the objectives, policies and processes from the previous years.

The risk-weighted assets are measured by means of a hierarchy of risk weights classified according to the nature of and reflecting an estimate of credit, market and operating risks.

The Central Bank of Armenia has set the minimal required total capital at AMD 150,000 thousand

The Organization has complied with all externally imposed capital requirements through the period.

## **29 Subsequent events**

According to Organization’s general meeting’s decree as of 17 January 2008, the chartered capital was increased by AMD 100,000 thousand, totalling to AMD 280,000 thousand and, accordingly, the borrowings from related party was decreased by the AMD 100,000 thousand.
